BAWDY HOUSES CLOSED UP.

Council Annexes District Near Cemetery and Inmates Promptly Move.

CITY BUYS TWO LOTS.

Last of a Dozen or More Prostitutes Left Monday and There Is Rejoicing.

The bawdy houses that have for many years been located near Hopewell cemetery, just outside of the city, are now all vacant. The last of the inmates moved out Monday afternoon.

About three months ago an ordinance annexing to the city the territory devoted to these houses was submitted to the council by Mayor Meacham and defeated by a vote of 4 to 3. Since that time some of the councilmen have changed their views and last Friday night the same ordinance was again submitted and passed by a vote of 5 to 2.

The territory to be incorporated contains about 4 acres of ground in addition to 15 or 20 acres within the cemetery. Upon the 4 acres referred to are three houses of five or six rooms each. One of these is north of a road separating it from the cemetery and is owned by Mrs. Lula Wells Mercer, now of Nashville. Two other houses south of this road and situated between the cemetery and the L. & N. Railroad were owned one by Mrs. Mercer and the other by Mrs. Nettie Wilson Tutt, of Memphis. Until about two weeks ago both were used as bawdy houses. One became vacant since the first of the month and Monday the furniture was all moved out of the other, after the occupants learned of the "annexation ordinance."

The owners of the two houses at once expressed a willingness to sell the property adjoining the cemetery to the city at a price much lower than they paid for it and yesterday the trade was closed and the city purchased one house for \$1,000 and the other for \$750, with about three acres of land that extends the unoccupied cemetery property to the L. & N. Railroad right of way on the eastern side. This addition will some day make one of the most beautiful portions of the cemetery. The houses will be utilized and the rentals will more than pay the interest on the investment. There is a railroad frontage of several hundred feet that the city could if desired sell for manufacturing purposes and realize a good profit, but this is not contemplated. The property is needed by the city and the improvements alone are worth the price paid. Above all, the deal forever removes from the cemetery its immoral surroundings. The house not bought by the city is also for sale and as it will be in the city it cannot be sold for other than a lawful purpose.

It is to be hoped that the work done by the council will meet the approval of the people. The citizens of that section of the city, after enduring the proximity of these houses of ill fame for fifteen years, are greatly rejoiced that they have been cleaned out and are gone forever. Some of the women left the city. Two or three now occupy a small house near the Water Co.'s stand-pipe and there are two houses with seven occupants near the eastern limits of the city.

TOBACCO BEDS ARE SCRAPED.

Lawlessness Resorted to And Bad Feeling Is Aroused.

ANARCHY WILL NOT DO.

Law Abiding Citizens To a Man Will Condemn Such Criminal Methods.

A new phase was given to the Association Tobacco movement when two or three of the largest planters in the county, who do not belong to the Association, found their plant beds scraped of plants and destroyed yesterday morning.

L. L. Leavell had 450 yards scraped, about half he had, by parties who went to the beds in two rubber tired buggies.

J. F. Garnett, a few miles away, had 500 yards destroyed that belonged to Gent Sanders, a cropper. There were tracks of a rubber tired vehicle and of several men about the bed.

J. T. Garnett, who has been a member of the Association for three years, also had one small bed of 150 yards destroyed, near the road. His cropper yesterday threw up his job and left.

Mr. Leavell and Mr. Garnett are not members of the association though it is said the former had about decided to join. Yesterday he offered \$500 reward for the capture and identification of the guilty parties and E. H. Armstrong, of this city left with bloodhounds yesterday to work up the case.

This is the first time any trouble of this kind has been reported in this county and such methods cannot be so strongly condemned.

Assistant Manager Jno. E. Garner, Mr. Jon Allen of Springfield, were in the city yesterday enroute from Virginia. They both desired to be quoted as disapproving and condemning such methods in the strongest terms and both declared that Col. Ewing thought as they did about such violence and had denounced similar outrages in scathing terms.

If this violence is the work of Association men, they are treading on dangerous ground. If it be done by non-association men to bring the organization into disrepute, then the Association members should assist

SKIRRELS' WINTER STORES

Board Very Little—Chipmunk's Preparation for Cold Weather—Reds Like Chipmunk.

In New England red squirrels do not put by great hoards of any kind for winter use. When a Maine red squirrel has filled itself with acorns and beech nuts it will hide a few here and there—under leaves, in hollow logs, in cracks of lifted trees and among stone heaps.

An average red squirrel, having the run of an oak grove in the fall of the year, may in the course of two weeks hide away from two to four quarts of acorns, though they will be in perhaps 20 different places, and in no instance which we have noted has any nut been shelled.

The squirrel which plans a hoard of nuts and makes deliberate preparations for winter is the little chipmunk, or striped squirrel, which seeks winter quarters soon after heavy frosts and which remains in hiding all winter. The chipmunks often hide as many as two quarts of shelled beech nuts in one place. Their storehouses are, as a rule, under the ground in sloping and sandy soil, the burrows having been dug with true engineering skill, so that no fresher can drown them out.

There is a colony of chipmunks among the mounds of graves in the cemetery on Indian Island. Old Town, near Bangor, which numbers nearly 100 individuals, and it speaks well for the kindness of the Indian children to know that the little workers are permitted to live so near to human habitations, for the Indian cottages are on all sides.

It is believed that most observing woodmen will say that the red squirrels of this vicinity seldom make large caches of provisions for winter consumption, and never shell the stored nuts. In fact, the red species have no need to pay much heed to such matters, as they are abroad and active in the coldest days of winter, as much as they are in mid-summer, so precautions for food are not demanded. As the red squirrel subsists for a good part of the year upon the cones of pines and spruces, which hang to the limbs, they do not care how deep or hard the snow may be, feeling secure in finding all the food they want among the treetops.

PLANTS WHICH DISAPPEAR.

Shrubs of Southern Mountains That Go for No Known Reason—Lost for Century.

In the southern mountains certain flowers have been lost for nearly a century, and rediscovered by chance in a different locality, thriving and abundant. No one knows the cause of their disappearance, by what means they were removed, or why they prefer their new habitat, says the New York Herald.

One curious feature is that these vanished flowers, or shrubs, are not as a rule insignificant plants that one might overlook. On the contrary, the beautiful variety of sunnamb named after Michaux, a French botanist, which was lost so many years and has only recently been found again, bore great panicles of creamy blossoms first, and later on thick clusters of velvety and crimson fruit.

Its leaves also turned a rich crimson in autumn, so that it seemed to flame and glow on the mountain sides.

Another lost plant, also a shrub, the eliottia, was a striking beauty. It belonged to the heath family and had long spikes of white blossoms, each blossom shaped like a St. Andrew's cross, in vivid contrast with its lustrous green foliage. It has now vanished as completely as if it had never existed.

Some of the plants were fortunately collected in 1878 by a gentleman near Augusta, Ga., so that it has disappeared in less than a quarter of a century. No reason is known for this loss either to botanists or the people among whom it once bloomed.

The fact that only two of the dead men had revolvers indicates, it is believed, that one of the Wilsons and West did the shooting and that West killed the two Wilsons, himself being shot to death by the one who had the revolver. Many shots were fired but only four took effect, all of them being deadly. One of the revolvers was found by the side of West Wilson the other by the side of Arthur West. HOME-COMING DAYS IN JUNE.

Information About Sale of Tickets to 'Old Kentucky.'

LOUISVILLE PROGRAM.

Time Limits May Be Extended For 30 Days at Valuating Office.

Numerous inquiries from citizens having relatives and friends at a distance, as to the rates, limit of tickets, etc., to the Louisville Home-Coming, has suggested the advisability of publishing a little general information along this line, received from Director General R. E. Hughes.

The rate will be one first-class fare for the round trip, plus 25 cents, with the following exceptions: In portions of Missouri and of Kansas, and all of Texas, Arkansas, Oklahoma, Indian Territory, one fare plus \$2. Same for Western passenger territory for points West of Missouri river, Minnesota, Iowa, Wisconsin, Illinois, Nebraska, Colorado and Wyoming. Most of California comes under the same classification. But from North Pacific Coast points and Spokane for direct routes, the rate is \$10 more than one first-class fare. Tickets will be on sale June 11, 12 and 13, except in California and other trans-Continental Territory, where the dates of sale will be June 6 and 7. Regular return limit of

COMMISSIONER GEO. E. GARY.

tickets is June 23rd, but by depositing ticket and 50 cents with valuating office in Louisville, the time may be extended to 30 days from date of purchase.

Side trip tickets out of Louisville to other Kentucky points will cost one-fare plus 25 cents; date of return trip to Louisville to correspond with expiration of their ticket deposited at that point. These tickets to Kentucky points will be on sale June 16, 17 and 18. Following is a brief outline of the program for the occasion, beginning on Wednesday, June 13th, and ending on Sunday, June 17th:

A Year of Blood.

The year 1903 will long be remembered in the home of F. N. Tackett, of Alliance, Ky., as a year of blood, which flowed so copiously from Mr. Tackett's lungs that death seemed very near. He writes, "Severe bleeding from the lungs and a frightful cough had brought me at death's door, when I began taking Dr. King's New Discovery for Consumption, with the astonishing result that after taking four bottles I was completely restored and, as time has proven, completely cured." Guaranteed for sore lungs, coughs and colds at R. C. Hardwick's drug store. Price 50c and \$1. Trial bottle free.

"AS YOU LIKE IT"

Will Be Presented by College Girls To-night.

This evening the young ladies of Bethel College will present "As You Like It;" Shakespeare's delightful comedy in the College chapel, for the benefit of the College gymnasium tickets are on sale at Anderson Fowler Drug Company.

Made Happy for Life.

Great happiness came into the home of S. C. Blair, school superintendent at St. Albans, W. Va., when his little daughter was restored from the dreadful complaint he names. He says "My little daughter had St. Vitus' Dance, which resulted in no treatment but grew steadily worse until as last resort we tried Electric Bitters, and I rejoice to say three Phil. Coughs, a complete cure." Quick, sure cure for nervous complaints, general debility, female weakness, impoverished blood and malaria. Guaranteed by R. C. Hardwick's drug store. Price 50c.

Improving.

Mr. James Moore who has been ill at the home of his mother, a short distance from the city on the Canton pike is improving, though not yet able to sit up. He has been sick for three weeks with a mild form of typhoid fever. Until he recovers Mr. Phil. Coughs, both of whom are in the civil engineering department of the L. & N. will attend to his duties.

The Texas Wonder.

Cures all Kidney, Bladder and Rheumatic troubles; sold by all druggists, or two months' treatment by mail for \$1. Dr. E. W. Hall, 2926 Olive street, St. Louis, Mo. Send for Kentucky testimonials. Sold by R. C. Hardwick.

DISPOSES OF PAPER.

Gen. Lawrence Severs Active Journalistic Duties.

Henry Lawrence, editor of the Cadiz Record, has sold an interest in the paper to his brother, John S. Lawrence, who is now local editor and business manager. Henry Lawrence was recently appointed adjutant general by Gov. Beckham, and will have no time to devote to the interest of his paper. This was his reason for making the sale. He will, however, still retain an interest in the property, and the paper will be conducted under the business name of Lawrence & Lawrence.

The Old Reliable Jewelry House

of Hopkinsville is, after all, the best place to get anything in the Jewelry line. There's a record behind us, a record of over thirty years; a clean record of satisfied customers, a record of honest dealing, for honest quality, honest prices. It's a record any Jeweler might feel proud of. And when we sell an article we have in mind that we have a record to maintain, and no slipshod methods, no careless workmanship, no lack of quality, is ever allowed to mar the record of the past. But to improve, if possible, this record, is ever our aim, and goods are sold for as low a price as it is possible to sell reliable goods.

It will pay you in the end to deal with the Old Reliable Jeweler.

New York Life.

Hopkinsville, Ky., April 30th, 1906.
Mr. Walter F. Garnett, Agent,
New York Life Insurance Co.,
Dear Sir:—

It gives me pleasure to acknowledge receipt of statement of optional settlement on 20-Payment Life Policy, No. 223,593, for \$1,500.00, issued at age 35, with premium of \$52.50, taken out with you Apr. 29, '86. After having been insured for 20 years, I am offered a paid up policy for \$1,500 and a cash dividend of \$406.88, or the total value may be withdrawn in cash—\$1,215.88, (which is more than I have paid in the 20 years) or a fully paid up policy payable at my death for \$2,219.00.

The cash settlement of \$1,215.88 is equal to Term Insurance at \$12.87 per \$1,000 and an investment of the balance of premiums with 54 per cent. compound interest for twenty years. This showing is certainly a creditable one for the New York Life, and I will be pleased to give you my application for \$1,000 on the Ordinary Life plan.

Yours very truly,
C. E. WEST.

STURDY FARMERS KEEP OFF ALL CATARRHAL ILLS BY TAKING PE-RU-NA

Pe-ru-na
Cures
Catarrh
Wherever
Located.

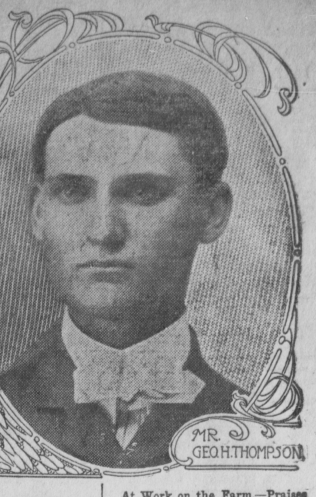

Pe-ru-na a Necessity in the Home.
J. B. Alexander, Publisher of the "Fruit and Floral Guide, A Magazine of Horticulture," published in Hartford City, Ind., says of Peruna:
"I was afflicted with catarrh of the throat and head for over ten years. I was treated by many physicians, but grew worse until I was seldom able to go out in cold weather.
"About one year ago I was advised to try Peruna, which I did, and I am now entirely well of the catarrh.
"Peruna is a necessity in our home. With the first symptoms of a cold we use it, and are never afflicted with catarrh.
"I advise all who are afflicted with catarrh to try Peruna. There is certainly nothing equal to it as a catarrh medicine."—J. B. Alexander.
Pe-ru-na is a Systemic Remedy.
If Peruna will cure catarrh in one place, it will cure it in any other place, because it is a systemic remedy.

Had Catarrh Thirty Years.—Pe-ru-na Cured Him.
Mr. Gustav M. Schmidt, Spring Valley, Ill., writes:
"I had catarrh of the head and throat for over thirty years. It became worse every year.
"About three months ago I commenced to take Peruna and Manalin, and now I am entirely cured of that troublesome sickness. Your medicine is surely a blessing to mankind.
"You can truly say that you have not lived in vain, Doctor, and I thank you for the good you have done me. May you enjoy a long life to help suffering humanity."—Gustav M. Schmidt.
Dr. Hartman Makes Personal Use of Pe-ru-na.
In speaking of his own personal use of Peruna, Dr. Hartman says:
"For a number of years my professional duties have compelled me to be much on the road, traveling long distances by rail, night and day, exposed to all kinds of vicissitudes, sleeping and eating in different hotels continually, and through it all I have preserved myself from any derangement of the body resulting from catching cold.
"At the slightest evidence of a cold, a few doses of Peruna invariably checked it."

Pe-ru-na a Household Friend.
Mr. Henry Schroeder, Route 2, Napoleon, O., writes:
"I suffered for almost ten years with catarrh of the stomach and all doctoring was of no avail.
"I took nine bottles of Peruna and two of Manalin and am now entirely cured.
"I recommend the medicine to all who are afflicted with this disease. It is my household friend."—Henry Schroeder.

At Work on the Farm.—Praises Pe-ru-na.
Geo. H. Thompson, Raleigh, Miss., writes:
"I have been cured of catarrh by your medicines, Peruna and Manalin. I had been afflicted with catarrh of the stomach about all my life, and was taken bad every spring and summer.
"I used several kinds of patent medicines, but they did me no good. I then took a treatment under an M. D., which did me but little good. By this time I had got where I could eat nothing but a little soup. I had severe pains, had lost in weight and could not do anything.
"I began taking your medicines, Peruna and Manalin. I then weighed 120 pounds, but after taking 17 bottles of Peruna and one bottle of Manalin, I weighed 160 pounds.
"I am now at work on the farm and feel well all of the time. I eat all I want to and my friends say that I look better than ever before. I will ever praise Peruna for its healing power."—Geo. H. Thompson.

OPEN SESSION.

Henry Clay Debating Society
Contest At Tabernacle
June 5.

Contest For Gold Medal Offered By Trustees of the City Public Schools

There will be an open session of the Henry Clay Debating Society on the night of Tuesday June 5th at the tabernacle. There will be an oratorical contest and the following young gentlemen will take part. Subject of debate—"Resolved, There should be a law restricting the sale and manufacture of patent medicines." Affirmative: James Nourse, Thomas Smith and James Breathitt. Negative: Leslie Henderson, Lawson Faxon and Thomas Earl. Judges to be selected from the audience.
The argument on the above subject will be followed by orations by Frank Dancy and Raymond Tichnor.
The board of trustees of the city

public schools has offered a gold medal for the successful contestant in both debate and oratory. The speeches in the debate and oratorical contest are to be original and as the young gentlemen have been devoting some time in preparing themselves it will be hard for the judges to determine as to which has the most merit.
"The Little Quartette" will be present and render several selections. Everybody is invited to attend these exercises and bring their friends. The small admission fee of ten cents will be charged and the proceeds will be devoted to paying tabernacle and other incidental expenses.

Had a Close Call.
"A dangerous surgical operation, involving the removal of a malignant ulcer, as large as my hand, from my daughter's hip was prevented by the application of Bucklen's Arnica Salve," says A. C. Strickel, of Miletus, W. Va. "Persistent use of the Salve completely cured it." Cures Cuts, Burns and Injuries. 25c at R. C. Hardwick's drug store.
Main street is looking cleaner this week than ever before, and if boxes were placed in the center of each square to receive loose paper and fruit peelings, it would be a small matter for the garbage wagon to empty the boxes every day.

A MOUNTAIN CLIMB

ASCENT OF THE "MOUNTAINS OF THE MOON."

Duke of the Abruzzi to Make Attempt—His Former Success—Present Undertaking Hazardous and Dangerous.

In the heart of mysterious Africa, upon mysterious heights, a mountain range that has withheld a secret from curious man, though many attempts have been made to penetrate its secret places, interpret the adventures undertaking this mission. We speak of Ruwenzori range, in Central Africa, up in the northeastern Congo Free State. When Stanley was leading the expedition for the relief of Emin Pasha, a porter one day called out to the explorer as they were making their way in the torrid land: "O, master, see the mountains covered with salt." Looking in the direction indicated, Stanley for the first time beheld the mighty ranges of mountains which extend both sides of the equator. Later he found that torrents from these mountains add to the volume of the Nile, and believed here were Ptolemy's Mountains of the Moon, wherein lay hid the sources of

WHERE THE DUKE WILL MAKE HIS NEXT ASCENT.

the Nile. It is these mountains a famous explorer of to-day is now making ready to assault. This explorer is the duke of the Abruzzi, who, though son of an ex-king, is best known for his success in the field of exploration. The duke attracted much attention in 1897 by making the first ascent of Mount St. Elias. His north pole expedition, which set forth in 1899, attained the northernmost latitude as yet reached. It is a long distance from Alaska and the arctic regions to equatorial Africa and the Ruwenzori range, for which he is soon to set forth.

No little of the hazard of this new enterprise lies in the extremes of temperature through which the party must pass. But let us take the journey in successive trips, accompanying the duke on the various stages of the trip to the top of the Mountains of the Moon. The base of the Ruwenzori range may now be reached without difficulty, a journey by rail from Mombasa to Port Florence on Albert-Nyanza, then a steamer in a day's time brings one to Entebbe, or Mengo, on the north shore of the lake. Here a caravan will be got together, and in a ten-days' march the party will be able to reach the mountains. An interesting article in the New York Times commenting on the expedition, says: "It is expected that not less than 200 well-disciplined men, such as may be procured in neighboring Uganda, under the supervision of a score of white superintendents, will be required for the arduous task. The work will cost more than to climb one of the higher Himalayas, and unless the explorer leaves much for his successors to discover, the bill will foot up a total that would exhaust any but a princely purse."

Before the men are reached the party must push its way in tropical heat and amid tropical luxuriance of vegetation, and this portion of the journey may prove the most trying. A way must be hewn through the bamboo forest for the porters with their loads, and the advance made in a steaming atmosphere, rainfall here being very heavy. A former explorer found his thermometer registered 115 degrees at an altitude of 5,000 feet. Deep bog lands lie between 9,000 feet and the snow line, bogs in which a man sinks to his knees at every step. Then just before the snows are reached they urprise a rocky wall; to get beyond this line long detours must be made. Now the men enter into the frigid zone, and here will probably spend several weeks in their endeavor to scale the chief peak and procure a map of the upper regions. The duke of the Abruzzi will not be at the disadvantage of early explorers who were not experts in snow ascents.

The highest ascent at any point in Africa is Kilimanjaro, 19,200 feet; the peaks of Ruwenzori have been variously estimated; Stanley held to be between 17,000 and 18,000 feet; Johnson put the figures considerably above, at 20,000 or 22,000.

Six early explorers tried in vain to do what the Italian is now attempting: Lieut. Stairs, Scott Elliot, Sir Harry Johnston, Dr. Stuhlman, the missionary Fisher, and David, the naturalist. In about three months the Duke of Abruzzi expects to be in Central Africa and begin the ambitious undertaking.

He knew.

"There's one thing I don't understand," said the pleasant-faced lady, "and that is why we hear so much fun poked at the mother-in-law, while nothing of the kind is ever said of the father-in-law."

"That's easily enough explained," said the young man who knew. "The mother-in-law is no joke."—Detroit Free Press.

Watch the kidney secretions. See that they have the amber hue of health; The discharges not excessive or infrequent; Contain no "brick-dust like" sediment.

Doan's Kidney Pills will do this for you. They watch the kidneys and cure them when they're sick.

Hopkinsville testimony proves it. J. W. Tunks, of 312 W. Seventh St., who is employed at M. C. Forbes' planing mill, says: "The condition of my health was such as to cause me a great deal of worry about my future. I had an almost constant aching across the small of my back and the kidney secretions were highly colored, excessive and irregular, in fact, the disorder was so pronounced that it had been said I bordered on diabetes. I also suffered at times with indigestion which caused me a great deal of distress. At one time I was scarcely able to do any work at all for nearly a year. I doctored and tried various remedies but nothing did me any permanent good until I used Doan's Kidney Pills, which I procured at L. A. Johnson's drug store. I had them only a few days when I noticed a change for the better and by the time I had finished the box I found they had brought about so decided an improvement in my condition as to convince me of their real worth and I am more than thankful for the relief that I have received."

FROM THE PREFACE

"In every situation General Lee was a great, a dominant figure. The character of Lee has been somewhat lost sight of in the study of his career, but a fairly gloomy with all that is high and noble and true. The Bayard of the South exhibits the characteristics of the Christian gentleman to the full. This is a personality to be studied, to be followed, to be loved. In his greatness and in his simplicity he is as enduring inspiration to true manhood for all America—the world even."

By CYRUS TOWNSEND BRADY
Author of "The Southerners," etc.

¶ A War-time story in all its aspects. It opens with a chapter in the life of Lee, woven around the hour in which he decided to take up arms for Virginia and the Southland.
¶ There is a dual love story—a vein of the most tender and sweetest sentiment running through the pages.

OUR SCHOOL TEACHERS.

Their Plans, According to
Rumor, May Make Some
Changes Necessary.

SOME ARE GOING AWAY.

Some Are Going Into Matri-
mony and Some Are
Going to Rest.

It is probable that several new teachers will be employed at the opening of the next school year. We have not seen Superintendent Hamlet in regard to the matter, but Miss Hattie Dietrich, who has been in the school as a teacher for the last seventeen years, has given out that she will not apply for re-appointment when the Board of Trustees makes its selection of teachers for the coming school year.

Miss Dietrich will not only retire as a teacher, but will take up her residence in some part of Ohio. The school will thus lose one of its oldest and most efficient instructors.

Madame Rumor says that there are to be two or three other teachers to go out, one on account of ill health and probably three are going to be married during the vacation. We have heard the names called, but do not feel at liberty to give them, as it might not be altogether safe.

Mrs. McKenzie, who is the only teacher now in the schools that went in at the opening of the schools 25 years ago, expects to continue in the service the coming year. She will spend her vacation at her old home in Virginia, leaving here a few days after the closing exercises on the night of June 7th.

Miss Lucy Starling will spend her vacation at Chautauqua, New York, probably the greatest resorts for pedagogues in the United States. Miss Jones, another one of the Beth-

el Female College teachers, will go East to be with her mother during her rest, after another year of hard work.

Six or eight of the younger teachers of the public schools are arranging for a stay at Lake Pontiac until school opens again.

Live Women.

There are a whole lot of live women at Henderson. They have what they call the "Civic Improvement Society," and they are doing a noble work. Recently they have taken in hand the beautifying and caring for of two parks and keep an eye on the general appearance of the city. As cows and all other animals are to be deprived the privilege of the streets for grazing after June first, we see no reason why some of our intelligent and progressive ladies should not take up the matter and get the drinking fountain talked of and do many other things to make our streets more attractive.
